

CONFERENCE RATIONALE:

NSCoPSE is its third decade of effective support for professionals who work with, and for, those who teach personal, social, health and economic education in schools and other settings.

By October 2010 we will know the results of the general election, the likely shape of PSHE education in educational settings and whether PSHEe has been made statutory.

This conference will be ideally placed to support you to reflect on the needs of advisors and consultants, consider local and national progress and to discuss ways to ensure effective professional support.

To achieve this we will hear from national speakers, key organisations, colleagues and young people about the strategic and operational issues arising from the move towards statutory PSHEe. We will enable delegates to reflect with their peers on the challenge of maintaining the profile of PSHEe, supporting schools as they develop new curriculum approaches and consider which key partnerships will ensure a cohesive approach to PSHEe within Children's Services.

A full list of contributors and the conference programme is available at www.nscopse.org.uk

Join us to explore how, together, we can sustain and secure a successful future for young people through effective PSHEe at a time of change.
